- Develop and maintain the components of the basic logic of applications
- Improve performance and maintain current web applications
- Design and implement testing strategies
- Implementation of the applications carried out (deployment).
- Assist in collecting and documenting user needs

Customer service

- Communicate with the customer to take inventory of needs
- Train system users
- Assist users in the event of a problem

Data Analyst

- Development of custom report management interfaces
- Review, analyze and validate data to ensure consistency, integrity and accuracy
- Prepare and send reports on the data entered

TRAINING

 **AEC in programming and web technology** 2021-à aujourd'hui
Institut Supérieur d'Informatique (I.S.I), Montreal

 **Master of Computer science**
Université de Nice, Sophia Antipolis, France

2017

Bachelor of Electrical, Electronic and communications Engineering

2012

Faculté des sciences de l'Université d'Etat d'Haïti, Port-au-Prince, Haïti

Comparative assessment issued by the Ministry of Immigration, Francization and Integration
(Ref# C4160482)

2021

PROFESSIONAL EXPERIENCE

Assistant Manager of the Medical Research IT Unit / Analyst programmer

2018 - 2020

Les Centres GHESKIO

- Support internal IT teams
- Manage projects independently, in collaboration with stakeholders
- Revise and maintain the mobile computer system for a larger volume of data
- Design, build and maintain information systems
- Formalize processes and data modeling
- Diagnose the functional problems encountered and propose the implementation of solutions.

Technological environment : C#/VB, ASP.net MVC, Entity Framework, Linq, Angular, H TML/CSS/Bootstrap, JavaScript, Typescript SQL Server 2016, Visual Studio 2015, Visual Studio Code

Analyst Programmer / Data Manager

2016 - 2018

Les Centres GHESKIO

- Participate in the needs analysis phase
- Design, program, test and debug application programs
- Add new modules to the existing system
- Provide training for system users
- Assist users in the event of a problem
- Solve bugs
- Write the documentation

PERSONAL PROJECTS

Project 1: Project Handler (Data collection system)

Technological environment: ASP.Net, Angular, HTML5, CSS3, Bootstrap, TypeScript, Firebase, C #, Entity Framework, Linq, Web API, Sql Server 2016, Visual Studio 2015, Visual Studio Code, Postman

Project 2: Project Handler Mobile (Mobile version of the Data Collection System)

Technological environment: Android, java, Firebase, HTTP-Requests, Sqlite, Android Studio

Project 3: Tasks Manager

Technological environment: Node, Angular, javascript, Sql Server, HTTP-Requests, Web API, Visual Studio Code, Postman

OTHER PROFESSIONAL EXPERIENCES

Mathematics teacher

2011 - 2016

Centre d'Etudes Secondaires, Haïti
